Range Fees

If you do not feel fully confident or have not shot for a while and want to hone your skills, we can give you a training session on our range:

£75/hour *when booked separately*

£50/hour *when booked with an outing*

Carcass Fees

Carcass (gialloched, head and lower legs removed, skin on) – **£1/lb**

Professionally butchered and vacuum-packed venison box – **£25** (in addition to carcass fee)

Pricing Terms & Conditions

The guide will make best efforts to advise the client of the **approximate** price of the animal before a shot is taken. If a shot is taken before a price is advised, the client is liable to pay the full confirmed price of the animal if it is retrieved. If the animal is missed or is wounded/not retrieved, the client is liable to pay the guide's approximated price of the animal.

If a client attempts a shot then they are liable to pay for any subsequent animals, regardless of success.

Wounded/not retrieved animals – 100% of approximated price of the animal

Clean miss – 75% of approximated price of the animal

Heads suspected of being medal-worthy will be assessed via CIC measurement. We can arrange for head preparation and CIC measurement, with all costs to be incurred by the client. The head remains the property and in the custody of the estate until payment has been received in full.

The guide reserves the right to deny the client a shot at a deer in line with the deer management plan and/or safe shooting angles.
